KHOSRAVI KHORASAN CO.

This company was the first and largest modern textile unit in the east of the country at the time of its establishment، which due to its decades of experience in the heart of Mashhad، its name is associated with the history، culture and economy of Mashhad. It brought with it the labor force of Mashhad، provided electricity to some areas of Mashhad، and the sound of the horn at the end of its shift was a symbol of the passage of time for the people of Mashhad.
